mens India Ltd., M/s Ericsson Telecom India Pvt. Ltd., M/s Fujitsu India Telecom Ltd., Alcatel and AT&T have been considered for orders of more than 5 lakhs lines.

Post Offices in Big Cities

1870. SHRI SATISH PRADHAN: Will the Minister of COMMUNICATIONS be pleased to state:

(a) whether it is a fact that the number of post offices in big cities are totally inadequate in proporion to the population;

(b) whether Government propose to increase the number of post offices in the big cities;

(c) if so, what are the plans theiefor;

(d) whether Government propose to make it mandatory for the township colony development agency to provide suitable place for the post offices;

(e) whether there is any proposal under consideration of Government to acquire suitable locations from the existing completed structure on the grounds of essential services; and

(f) if so, what are the details thereof?

THE MINISTER OF STATE OF THE MINISTRY OF COMMUNICATIONS (SHRI SUKH RAM): (a) No, Sir.

As on 31-3-92, there were 16224 urban post offices to serve a population of 217.17 million (1991 census), i.e. on an average, an urban post office serves a population of 13,385 which is a satisfactory ratio.

(b) and (c) During Annual plan 1993-94, it is proposed to open 100 departmental sub post offices in urban areas. The post offices are opened on the basis of need, fulfilment of prescribed norms and availability of resources for the purpose

(d) and (e) There are no such proposals.

(f) Does not arise in view of reply to (d) & (e) above.

1871. *[Transferred to \9th August,* 1993]

Computerisation of Telephone Exchanges in the country

1872. SHRI VIRENDRA KATARIA: Will the Minister of COMMUNICATIONS be pleased to state:

(a) whether Government chalked out any comprehensive plan to computerise the telephone exchanges in the country in a big way; and

(b) if so, the details thereof?

THE MINISTER OF STATE OF THE MINISTRY OF COMMUNICATIONS (SHRI SUKH RAM): (a) Yes, Sir.

(b) Details are given in the Statement.

Statement

The following actions have been initiated by the Government to computerise the Telephone exchanges as well as some important services in the country: —

— At present 12314 exchanges out of a total of 17368 exchanges are of electronic (computerised) type pertaining to various technologies viz. E. 10B, FETEX 100L, PRX-A, NEAS-61S, C.DOT and ILT.

— There are plans to replace all the electro-mechanical exchanges of various types as and when they out live their life. No new electromechanical exchanges are being introduced after 1995-96.

— More than 5 lakhs lines of new technology electronic exchanges are planned to be introduced in the Telecom network during the current Financial Year.

— Directory Enquiry (197) and Fault Repair Service (198) are being computerised in a big way. These services have been made available at 20 and 150 stations respectively so far.

— Computerisation of large manual trunk exchanges at 14 locations in the country has been planned during the Eighth Plan. Computerisation of 20 medium size Trunk exchanges have been planned during the next two years.
